Access Request Form: NSF CAREER Proposal Library

The [Office of Research Initiatives](#) (ORI) has created a library of over 20 winning NSF CAREER proposals from Columbia faculty, and will make one or more proposals available to all Columbia assistant professors who plan to submit to this extramural funding program.

To access a winning proposal from your broad disciplinary area, please complete each section of this Access Request Form, and return via email to marley.bauce@columbia.edu. One or more proposals will be sent to you via email attachment within one week of your request.

Are you planning to submit a proposal for the next July deadline for the NSF CAREER Award?

Yes

No

Not Sure

Distribution Policy: By receiving a sample CAREER proposal, I consent to not sharing this document with any individual(s) outside of Columbia University. I understand that the author PI has only given permission for the proposal to be shared with prospective applicants, not to any other groups.

Check here to confirm your understanding of this distribution policy.

Responsible Conduct Policy: By receiving a sample CAREER proposal, I am committed to Columbia University's [Institutional Policy on Misconduct in Research](#), which among other things prohibits plagiarism in research proposals. In this specific case, I confirm that I will not lift verbatim text from the sample proposal for use in my own. If I have questions regarding specific text, I will contact the PI, and discuss with her or him whether I may borrow portions of the text.

Check here to confirm your understanding of this responsible conduct policy.

Contribution Policy: By receiving a sample CAREER proposal, and if my own proposal is selected for funding, I agree to donate the narrative (non-budgetary) portion of my winning proposal back to ORI's proposal library.

Check here to confirm your understanding of this contribution policy.
